

# ALLIES of TEXAS STATE

---

## I'm an Ally, are you?

The Allies of Texas State program provides training for students, faculty and staff who choose to provide a supportive, encouraging and inclusive environment for LGBTQ persons. The program promotes awareness and understanding about sexual and gender identities through education and training. While a person who attends the training may never counsel a LGBTQ person, the Allies of Texas State program's goal is to encourage respect within the campus culture. In addition, the program focuses on creating and sustaining safe places for LGBTQ persons by providing information, working toward eliminating myths, misconceptions and stereotypes, and honoring the diversity of the campus community.
