

**Building Surveys in mrInterview  
(Web-Based Software Survey Tool)**

**Dr. Gail Ryser, Director  
Yaowen Han, Coordinator mrInterview  
Testing, Research-Support, and Evaluation Center**

Are you using a survey to investigate a research problem? Would it be advantageous to collect your data online? If yes, mrInterview is a web-based software survey tool that will make your life easier!

This training seminar will teach you to build surveys using mrInterview and will provide hands-on training in the following areas:

- Designing several types of survey questions
- Adding extra properties to the questions
- Setting up access to respondents
- Allowing other project participants to modify the survey
- Testing the survey
- Requesting project assistance

Prerequisites:

- Basic computer skills, preferably PC.
